Continued Engineering Probation Questionnaire

Please answer the following questions after reviewing the online probation module and your personal worksheet. Bring this questionnaire with you to your probation advising appointment.

WHERE YOU STAND:

1. You are on probation because you earned less than “C” average on classes in what category—major courses, technical courses, or other courses?
2. List the courses that have resulted in your probation.

3. List the courses you are taking this semester that will remove you from probation.

4. What grades must you make in these courses to be removed from probation?

ACTION PLAN:

1. This is your second (or more) semester on probation. What issues (academic and non-academic) have affected your grades?

2. What did you do differently last semester to improve your grades?

3. Did it help? If no – why not? If yes – why?

4. What will you do this semester to improve your grades?

5. What will happen at the end of this semester if you do not remove yourself from probation?

6. Is there anything else you need to discuss with your advisor?
