Miami University’s School of Engineering and Applied Science seeks applicants for a tenure track position in mechanical and manufacturing engineering beginning fall 2010. The School recently moved into a new state of the art facility.

Miami University, located 35 miles north of Cincinnati, was founded in 1809 and is celebrating its 200th anniversary with a renewed commitment to enhance its status as one of the top public universities in the nation. Miami is consistently praised by college guidebooks for practices leading to student success, including personal attention from faculty, participation in significant research, and opportunities for leadership.

Miami’s enrollment is 14,000 undergraduate and 1,800 graduate students.

**Assistant/Associate Professor of Mechanical/Manufacturing Engineering**

Applicants for the position are expected to teach undergraduates, conduct labs, conduct research, perform service and advise students in the mechanical engineering program and related engineering programs.

A Ph.D. in mechanical engineering or related fields is expected; ABDs will be accepted, but the doctorate must be completed by the time of appointment; strong knowledge in mechanical engineering, including thermal/fluid science.

Industrial experience, teaching experience, current program of research, and knowledge of advanced engineering areas are desired. To be appointed to the rank of associate professor, successful candidate will have an established record of scholarship/research.

To be considered, applicants must submit a letter of application, a curriculum vita, and three letters of recommendation to: Professor Errol Gundle, Screening Committee Chair, Mechanical and Manufacturing Engineering Department (MSC 1078), Miami University, Oxford, OH 45056. (Phone: 513-529-0713, Fax: 513-529-0717, Email: MMEDept@muohio.edu). **Screening of applications will begin October 1, 2009 and continue until position is filled.**
