Franklin W. Olin College of Engineering invites applications for a regular faculty appointment at the Assistant Professor level for Fall 2010. We are seeking candidates dedicated to undergraduate engineering education and research who have a demonstrated record of excellence in disciplines related to mechanical engineering. Outstanding candidates in all areas of research will be considered. We are especially interested in those whose expertise lies in the broad areas of systems engineering, dynamics, and controls, including robotics and mechatronics. Those with significant industrial or entrepreneurial experience are encouraged to apply.

In addition to exemplary teaching in mechanical engineering, the successful candidate should have the flexibility to teach courses spanning the college’s project-oriented engineering curriculum. Candidates should be able to supervise undergraduate research. Commitment to innovation, research, and intellectual vitality through scholarly and other creative endeavors is essential.

Franklin W. Olin College of Engineering, established in 1997, is an institution that strives to provide an exceptional and innovative engineering education that includes the sciences and liberal arts. Our student body consists of approximately 300 accomplished students whose interests in engineering and science are complemented by their interests in entrepreneurship, humanities and the arts. The College is located in Needham, MA, with convenient access to Boston and the Route 128 high-technology sector. Further information is available at http://www.olin.edu.

Applicants with a Ph.D. degree should submit a curriculum vitae, a description of their teaching philosophy and experience, a description of their current research program specifically addressing how undergraduates might become involved, and arrange to have three letters of recommendation sent to:
