Assistant/Associate Professor, Dept of Mechanical Engineering, University of Minnesota, Minneapolis

Position: Assistant/Associate Professor
Organization: Dept of Mechanical Engineering, University of Minnesota
Location: Minneapolis
Deadline: none

Description:

The Department of Mechanical Engineering at the University of Minnesota invites applications for two openings at the level of tenure-track assistant professor or untenured associate professor. Other levels of appointment may be considered in exceptional cases. The Department places higher value on the overall creativity and scholarly originality of the candidate’s research than on his or her fit into a particular area of mechanical engineering. Medical devices are a particular interest for this search. Further information is at http://me.umn.edu/search/faculty2.shtml.

Qualifications:

Doctorate in mechanical engineering or a closely related discipline. Successful applicants must have demonstrated the potential to conduct vigorous and significant research programs.
