Equal Opportunity in Engineering
TEXAS RESEARCH EXPERIENCE
2013-2014 Participants

The Texas Research Experience (TREX) Program offers valuable research opportunities for undergraduate engineering students during the fall and spring semesters. TREX aims to ignite interest in academia or industry research careers and encourage students to pursue these interests by attending graduate school. Selected TREX participants demonstrate exceptional academic competence, leadership skills, independence, ingenuity, and the ability to balance multiple responsibilities.

About the EOE Program

The Cockrell School of Engineering established the Equal Opportunity in Engineering (EOE) Program in 1970 to promote the recruitment and academic development of African American, Hispanic, and Native American students interested in pursuing careers in engineering. Since that time, EOE has expanded its goals and now seeks to increase the diversity of the Cockrell School of Engineering student body by supporting students who come from historically underrepresented population groups in Texas or students who have backgrounds or experiences that will contribute to the overall diversity of the Cockrell School of Engineering. EOE is supported by the Cockrell School of Engineering, corporate partners, and grants from the federal and state governments.

EOE STAFF
Enrique Dominguez, Director
Dawn Hunter, Recruitment Coordinator
Sana Meghani, Program Coordinator
Phillip Nevels, Academic Coordinator

Mission

To promote excellence in the areas of academics, leadership, professional development, and community support. To build a support network for advancement through opportunities that encourages engineering students to interact with their peers, faculty, alumni, and corporate representatives. To provide comprehensive support programs that address outreach and recruitment, academic enrichment, leadership, and professional development.

Vision

Our vision is to create a student body at UT Austin’s Cockrell School of Engineering that reflects the diversity of the college age population within the state of Texas.
