Established by the Cockrell School of Engineering, EOE seeks to increase the diversity of its student body by supporting students who come from historically underrepresented population groups in Texas or students who have backgrounds or experiences that will contribute to the overall diversity of the Cockrell School of Engineering at UT Austin.

Thank you to all Partners for Academic Excellence that support EOE in its efforts to achieve its vision of a more diverse student-body and engineering profession. Partner funding levels and recognition opportunities are described in more detail at http://www.engr.utexas.edu/eoe/partners/index.cfm.

2009-2010 Calendar of Events

- The Fall Kick-Off: August 27, 2009
- EOE First Year Interest Group Seminars: Every Thursday - Fall & Spring Semesters
- EXPO 101 & 201: September 8, 2009
- EOE Partners for Academic Excellence Meeting: September 23, 2009 • February 5, 2010
- Considering Grad School: Workshop Mini-Series: October 7, 2009 • October 14, 2009 • October 21, 2009 • October 28, 2009
- Longhorn Engineering: The Power to Shape Your World: September 12, 2009 • October 24, 2009 • August 6, 2010
- Un Sabado Gigante in Engineering: November 14, 2009
- EOE Career Development & Leadership Seminars: Every Thursday - Fall & Spring Semesters
- Industry Super Bowl: January 29-30, 2010
- EOE GuideRight: March 6, 2010
- Leadership Empowerment Weekend: April 16-17, 2010
- Excellence Awards Banquet: April 29, 2010
- MITE: Introduction to Engineering: June 6-11, 2010 • June 13-18, 2010

Please visit www.engr.utexas.edu/eoe for times, locations and additional information about these and other EOE initiatives.

Revised 08/09
The Cockrell School of Engineering seeks to increase the diversity of high school students entering the engineering pipeline by providing recruitment initiatives that convey the importance of strong academic preparation.

EOE works with industry representatives, professors, current engineering students, teachers, counselors and parents, all essential contributors to a student’s support network, to encourage high school students to attend college and pursue engineering careers.

EOE Recruitment Initiatives include visitation programs, summer camps, hands-on activities and workshops designed to motivate and inform prospective students about academic and career opportunities in engineering.

EOE Academic Initiatives help students establish a strong academic foundation and promote the formation of a peer support network. EOE provides all engineering students with educational support services that promote academic excellence.

Students have the opportunity to take advantage of EOE services which begin during summer orientation before freshman year and continue through graduation, the final destination.

EOE promotes the concept of academic leadership within the engineering student community. Academic leadership is not just having a high GPA, but also includes a student’s ability to encourage, lead, and support other students in the community to pursue overall excellence.

EOE Leadership and Professional Development Initiatives provide students with maximum exposure to engineering professionals working in industry. These professionals coach students on sharpening their job searching skills and other career development topics.

EOE also collaborates with the following student engineering organizations to provide valuable leadership and professional development opportunities to the student community:

- Pi Sigma Pi Minority Academic Engineering Society
- National Society of Black Engineers (NSBE)
- Society of Hispanic Professional Engineers (SHPE)
