

Which catalog am I in?

“College of Engineering. An engineering student may graduate under the catalog covering any academic year in which he or she was enrolled in the college. Which ever catalog the student chooses, all degree requirements must be completed within six years of the end of the two-year period covered by that catalog. For example, a student who chooses to graduate according to the requirements in the 2004-2006 catalog must do so by the end of the summer session 2012.”

Fall 2002 – Summer 2004: catalog 2002-2004, 2004-2006
