

Decommissioning

John B. Hickman
Reactor Decommissioning Section
Division of Waste Management and
Environmental Protection
NMSS

Why Transfer to NMSS

- Commission policy for transfer of licensing responsibility for decommissioning power reactors changed in 2002
- In 2005 the Commission directed the staff to evaluate further consolidation of NRC decommissioning program
- As a result, oversight of decommissioning RTRs will transfer to NMSS/DWMEP on October 1, 2006
- Transfer allows for efficiencies in the RTR decommissioning process
 - Experienced decommissioning staff
 - Refined decommissioning process
 - Established timeliness goals for completion of decommissioning actions

How Does This Affect You

- Project management by DWMEP in NMSS
- Decommissioning Plan and Final Status Survey Plan reviews will be performed by DWMEP staff
- ORISE will continue to perform confirmatory surveys
- Inspections will now be done by experienced regional staff
- Operator licensing, where needed, will continue to be performed by NRR
- Seamless transition
